INTERVIEW SUMMARY

The following is a summary of an interview between the undersigned attorney and Examiner David M. Purol regarding the above-captioned application.

The interview occurred on December 15, 2003. Applicants have received an Interview Summary from the Examiner. The Interview Summary was mailed December 17, 2003.

The interview was telephonic. During the interview, no exhibits were shown nor any demonstrations conducted. However, the Examiner was provided a proposed amendment. The prior art discussed was the O'Brien reference. No agreement was reached with respect to any claims. The Examiner determined that the proposed amendment to claim 1 did not define patentable subject matter over the prior art of record. The Examiner suggested that the applicant further amend claim 1 to specifically define structures not shown nor suggested by the prior art of record.

No fee is believed due with the submission of this paper. If a fee is due, the Commissioner is authorized to charge such fee to Deposit Account No. 50-1434.

Respectfully submitted,
